

# Career fairs

Data publikacji: 29.09.2019 Data modyfikacji: 29.09.2019 Departament Rynku Pracy MRPiPS

---

This is a form of direct contact of many employers with many candidates for the job to present job offers or vacancy proposals and recruit candidates meeting the requirements of individual employers.

Career fairs are events which can be organised by a Labour Office:

- Independently — local fair reach, covering the area of a single powiat,
- In cooperation with a Voivodeship Labour Agency or other Powiat Labour Agencies or other institutions — local, national or international fair reach.

The information on the organised career fairs is published on [CBOP](#) website in the tab called "Calendar of fairs, exchanges and training sessions".

Please remember! Participating in career fairs is one of jobseeking opportunities. It enables to meet many employers, talk to them, establish contacts with the employer or leave your CV.

One visit to the career fair can result in finding a job or changing it to a more interesting one.

## **Ask your Career Advisor!**

If you are registered, the Office can refer you to participate in the career fair and organise your transport to its location if the fair takes place outside your powiat.
